2.Proposed revisions to Recommendation N.13

Measurements to be made by the broadcasting organizations during the preparatory period.

Replace the fifth paragraph by the following text:

"During the preparatory period a useful signal which can be used for the alignment of sound-programme connections is that shown in Figure A-1/N.13. The definitions and its method of use are given in Annex A of this Recommendation. A suitable automatic measuring equipment for this purpose is specified in Recommendation 0.33".

Add the following new annex to the Recommendation:
