2.Proposed revisions and additions to Recommendation 0.33

Change the title of the existing Recommendation as follows:

"AUTOMATIC EQUIPMENT FOR RAPIDLY MEASURING STEREOPHONIC PAIRS AND MONOPHONIC SOUND-PROGRAMME CIRCUITS, LINKS AND CONNECTIONS".

Add the following paragraph to the end of section 1 General:

"It should be noted that the equipment will meet the requirements of Recommendations N.12 and N.13. However, measurement of every parameter specified in Recommendations N.10, N.21 and N.23 is not possible, e.g., group delay/frequency response."

In section 4.5 Compander linearity change 800 Hz to: "820 Hz".

Revise the Annexes A and B as shown below, and add the new Annexes C, D, E and F given hereafter to the Recommendation:
