PUBLIC DATA NETWORKS: SERVICES AND FACILITIES

CATEGORIES OF ACCESS FOR DATA TERMINAL EQUIPMENT (DTE) TO PUBLIC DATA TRANSMISSION SERVICES

ITU-T Recommendation X.10

(Previously “CCITT Recommendation”)

FOREWORD

The ITU Telecommunication Standardization Sector (ITU-TS) is a permanent organ of the International Telecommunication Union. The ITU-TS is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, established the topics for study by the ITU-TS Study Groups which, in their turn, produce Recommendations on these topics.

ITU-T Recommendation X.10 was revised by the ITU-TS Study Group VII (1988-1993) and was approved by the WTSC (Helsinki, March 1-12, 1993).

NOTES

1 As a consequence of a reform process within the International Telecommunication Union (ITU), the CCITT ceased to exist as of 28 February 1993. In its place, the ITU Telecommunication Standardization Sector (ITU-TS) was created as of 1 March 1993. Similarly, in this reform process, the CCIR and the IFRB have been replaced by the Radiocommunication Sector.

In order not to delay publication of this Recommendation, no change has been made in the text to references containing the acronyms "CCITT, CCIR, or IFRB" or their associated entities such as Plenary Assembly, Secretariat, etc. Future editions of this Recommendation will contain the proper terminology related to the new ITU structure.

2 In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

Recommendation X.10

CATEGORIES OF ACCESS FOR DATA TERMINAL EQUIPMENT (DTE) TO PUBLIC DATA TRANSMISSION SERVICES

(Málaga-Torremolinos, 1984; amended at Melbourne, 1988 and Helsinki, 1993)

The technical contents of Recommendation X.10, as it appeared prior to 1992, have been included in the 1992 and later versions of Recommendation X.1. Reference should be made to that Recommendation for information concerning categories of access for DTEs to public data transmission services.

It is the intent to withdraw Recommendation X.10 in the future.
